Beebe
Barrows
Kahle
Beeby says
1' little Rock flt more active - looking than cemetery flt.
1' high scarp (on title)
well defined scarp (S side up) - Beeby
Probably dont zone.
Topo expression is strong.
Maybe erosional only - probably dont zone
NO ZONE
Safe?
Unsafe
Hart wins
Area S of SA flt mapped by Barrows
Note: "Tjh" Formation now considered to be "TQjh" as is prob. similar in age to Saugus Fm or early Pleistocene. Therefore, faults in "Tjh" are "Quat."
