
FER-116

Figure 3B. Data compiled from Weber and Lajoie (1980) and Weber and Cotton (1980), with annotations. Only those faults Weber & Lajoie depict as Late Pleistocene or Holocene are shown.

(W&C) from Weber and Cotton
DD = deflected drainage
BHD = beheaded drainage
T = trench or trough
CD = closed depression
LS = linear swale

(2) = refers to segment numbers used in text

116-3
