
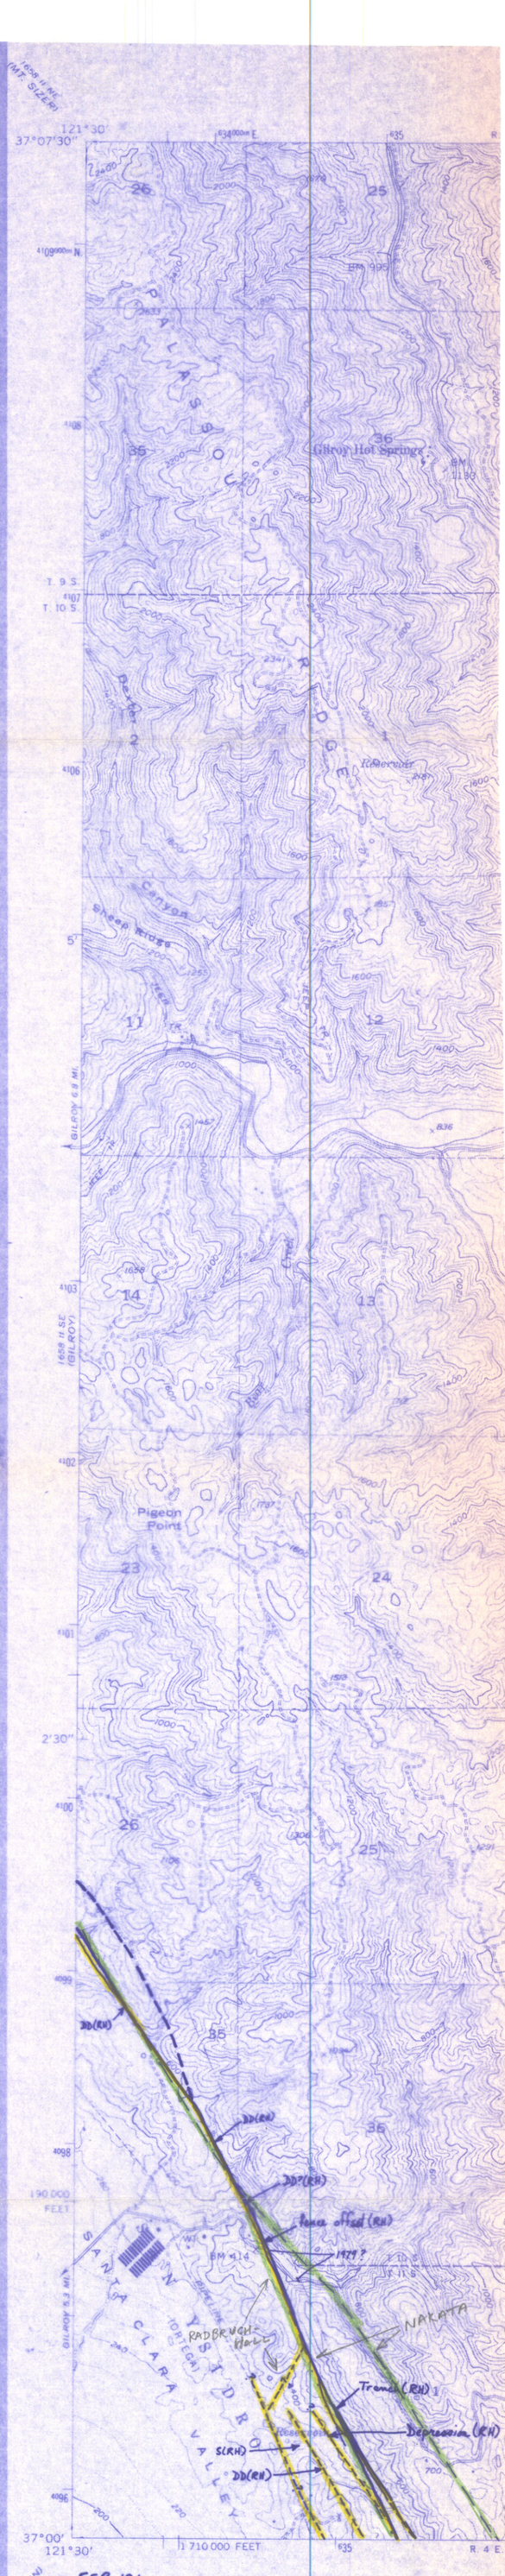
Sources: (TWD) = Dibblee, 1973a
(RH) = Radbruch-Hall, 1974
(A&W) = Armstrong & Wagner (1978)
(W) = Wagner (1978)
(N) = Nakata (1980)
DD = deflected drainage
S = saddle
SP = sag pond

Tr = trench or trough
H = Holocene
B = bench
A = trench excavated
AP report limits (see Table 1)
1979 = location of fault rupture (Hart, et al)

FER 121.
Figure 4A. Faults from the published literature (only selected faults of Armstrong and Wagner shown).

Dibblee, 1973a
Radbruch-Hall (1974)
Williams, et al (1973); "x" denotes most recent fault trace
Wagner (1978)
Armstrong and Wagner (1978)
Nakata (1980)



FER 121.
Figure 4B. Faults from the published literature (except Armstrong & Wagner, 1978).

Dibblee, 1973
Radbruch-Hall, 1974, with abbreviated annotations
Nakata (1980)
DD = deflected drainage
S = saddle
(RH) = Radbruch-Hall (source)
1979? = fault rupture data from Hart, et al (1979)
