FER-212, Figure 2
Recently active faults on the Chester and Almanor quadrangles.

EXPLANATION

Recently active faults mapped by Wills (this report) based on interpretation of aerial photographs and limited field checking. Solid line indicates well-defined feature, dashed where approximately located, short dashed where inferred, dotted where concealed. Hachures on down-dropped side. f/c indicates locality field checked.

Geomorphic features indicative of fault recency and/or location.

ld	linear drainage	lr	linear ridge
shb	side-hill bench	s	saddle
t	tonal lineament	v	vegetation lineament
